**Databases:** MongoDB, MySQL

**Tools & Version Control:** Git, GitHub, Docker

**Programming Languages:** Python, TypeScript, JavaScript

**Soft Skills:** Communication, Team Collaboration, Critical Thinking, Problem Solving

## COURSE COMPLETION CERTIFICATE

[Python](#) -By GUVI courses

## LANGUAGE

English

Hindi

## SUMMARY

Aspiring Full Stack Web Developer with hands-on experience in building responsive and interactive web applications using the MERN stack. Skilled in JavaScript frameworks, REST APIs, and database management, with a strong focus on performance optimization, clean code, and UI/UX design. Proven ability to deliver scalable and maintainable solutions through teamwork, critical thinking, and problem-solving.

## WORK EXPERIENCE

Intern – AduNet | Remote | Jan 2025 – Feb 2025 [Github](#)

- Designed and deployed an AI chatbot using Python and NLP techniques.
- Enhanced response flow and improved accuracy by refining NLP models.

## PROJECTS

**Interview Prep AI** [Github](#) | [Live](#)

**Tech Stack:** MERN Stack, Gemini API

- Built a fully responsive and interactive AI-powered interview preparation platform.
- Integrated Gemini API to deliver personalized AI-generated interview questions and insights.
- Managed backend APIs, authentication, and data storage using Node.js and MongoDB.

**Resume Analyzer** [Github](#) | [Live](#)

**Tech Stack:** React.js, React Router, Tailwind CSS, Puter.js

- Developed an AI-driven resume analysis app that provides personalized resume feedback.
- Integrated serverless AI functions using Puter.js for real-time analysis.
- Designed secure user authentication and personalized dashboards.

## KEY ACHIVEMENTS

- Improved web app performance by 30% through code optimization and efficient state management.
- Delivered multiple responsive, cross-device compatible web projects.
- Self-learned Redux Toolkit, GitHub workflows, REST APIs to solve real-world challenges.
